Dear [redacted]

As you know, the Atomic Energy Commission, with authorization from CIA, has had reproduced (on an unclassified basis) at Oak Ridge for Commission distribution certain translations originally issued by CIA under an "CUO" or "restricted" classification which were declassified by virtue of the fact that the original documents were held by public libraries, and by deletion of all references to the CIA or the Government.

This action was cleared in advance either on an individual or on a "blanket" basis with CIA.

It would now be greatly appreciated if authorization could be obtained from CIA for AEC to supply the above mentioned documents, as AEC translations, to the National Science Foundation effort, and thus to the Library of Congress for indexing. Dr. Reichardt of this office, [redacted] of your office and personnel in FDD have discussed this action on an informal basis and could find no basis for objection on the part of CIA.

25X1A

Sincerely yours,

Walter F. Colby
Director of Intelligence
